

Guanaco Coloring Sheet

Directions

1. Color this guanaco below in its home in South America! There are grasses and mountains.

2. When you're done, add some soft, warm fiber to the body, just like real guanacos in the wild!

You can use cotton balls, felt or even better - find something soft that your family was going to throw out, like an old T-shirt or cloth!

3. With help from an adult, you could even cut the guanaco!
