### Abbreviations

- **A**: Awning
- **B**: Balcony
- **C**: Ceiling
- **D**: Door
- **E**: Entry
- **F**: Floor
- **G**: Gate
- **H**: Highway
- **I**: Interchange
- **J**: Junction
- **K**: Knuckle
- **L**: Lintel
- **M**: Membrane
- **N**: Ceiling
- **O**: Opening
- **P**: Panel
- **Q**: Quay
- **R**: Roof
- **S**: Street
- **T**: Terraced
- **U**: Underground
- **V**: Vent
- **W**: Window
- **X**: Wall
- **Y**: Yard
- **Z**: Zone

### Line Type Legend

- **Dashed Line**: Drafting Line
- **Solid Line**: Solid Line
- **Dotted Line**: Dotted Line

### Wiring Plans

1. **1**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
2. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
3. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
4. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
5. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
6. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
7. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
8. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
9. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
10. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.

### Power Equipment

- **1**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **2**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **3**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **4**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **5**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **6**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **7**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **8**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **9**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
- **10**. The electrical system is supplied with power from the distribution panel, as noted on the panel plan.
ELECTRICAL SPECIFICATIONS

GENERAL:
1. All work shall be in accordance with the National Electrical Code. All work shall be done by a licensed electrician.
2. All work shall be in accordance with the New Jersey State Electric Code. All work shall be done by a licensed electrician.
3. All work shall be in accordance with the Local Building Ordinance. All work shall be done by a licensed electrician.

TRADE SPECIFICATIONS:
1. All work shall be in accordance with the New Jersey State Electric Code. All work shall be done by a licensed electrician.
2. All work shall be in accordance with the Local Building Ordinance. All work shall be done by a licensed electrician.

REFERENCES AND DRAWINGS:
