

Nuclear Science: From Energy to X-Rays

Wednesday, April 4, 2018

7-8:30 p.m.

Anheuser-Busch Theater

The Living World

Free admission

No reservations needed

Featured Panelists:

Ayodeji B. Alajo, Ph.D., Assistant Professor, Department of Nuclear Engineering, Missouri S&T

Monica Gehrig, graduate student and GANN Fellow, Department of Nuclear Engineering, Missouri S&T

Gregory Gelles, Ph.D., Professor and Chair, Department of Economics, Missouri S&T

Joshua Schlegel, Ph.D., Assistant Professor, Department of Nuclear Engineering, Missouri S&T

Joseph D. Smith, Ph.D., Laufer Endowed Energy Chair and Director, Energy Research and Development Center, Department of Chemical and Biochemical Engineering, Missouri S&T

Shoaib Usman, Ph.D., Associate Professor, Department of Mining and Nuclear Engineering, Missouri S&T

Learn about innovation and discovery in nuclear science today, its role and impacts on health and society, and applications for the future. Science and engineering experts from Missouri University of Science & Technology cover hybrid energy systems involving Small Modular Reactors (SMRs), the exciting applications of plasma physics, the safety record of U.S. fission plants, nuclear waste disposal and management, an economics perspective on nuclear power generation, and medical applications of nuclear research. This expert panel is ready to answer your questions on all things nuclear.
